

Have you seen a colour ringed black-tailed godwit?

We'd like you to tell us about it!

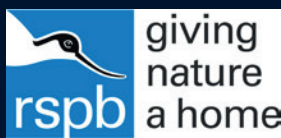

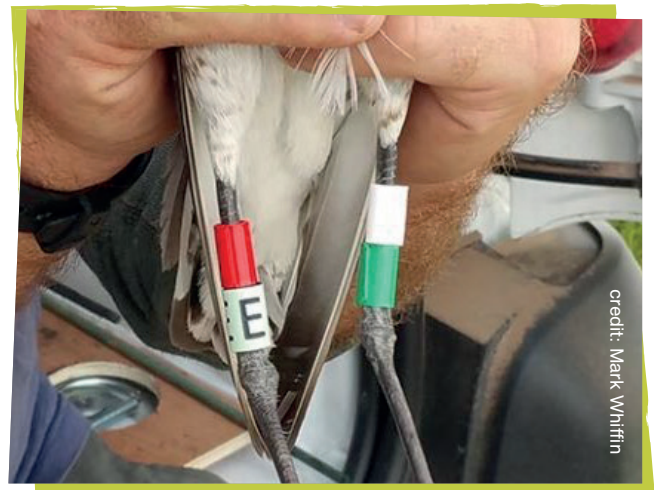

We have marked and released some 'headstarted' and wild black-tailed godwits, and we would like your help to track their movements! Please send your colour ring sightings and find out more information at www.projectgodwit.org.uk

Please take note of the **date**, **time** and **location** where you saw the bird, along with its **colour ring combination**.

All black-tailed godwits colour ringed under our project have two colour rings above the knee on each leg. The lower colour ring on the right hand leg is lime in colour with the black letter "E".

If you would like to provide a contact email address we will send you information about the bird that you have seen.

Project Godwit is a partnership between RSPB and WWT with major funding from the EU LIFE Nature Programme, the HSBC 150th Anniversary Fund, Natural England and the Heritage Lottery Fund.
